

THE TARIFF SUBJECT

Draws a Large Attendance in the Senate.

ALDRICH AND VEST DEBATE

Amendment Proposed Providing For An Export Bounty On Home-Grown Grains, Etc.

WASHINGTON, May 27.—The debate on the tariff bill began in the senate today with crowded galleries and a large attendance of senators and tariff leaders of the house.

Minor business claims attention up to 2 p. m., when Senator Aldrich of Rhode Island, in charge of the bill, had the measure laid before the senate. At that time every available seat in the galleries was occupied. The Republican side of the floor showed an almost solid representation, there being three or four vacant seats. The Democrats also presented full ranks and the scattered seats of the Populists were occupied with out exception. Dingley, chairman of the ways and means committee, and author of the bill, took a seat in the gallery beside Mr. Aldrich and listened attentively. Other Republican members of the ways and means committee and Representative Simpson of the Populist contingent occupied the rear benches. Speaker Reed was not present.

Mr. Aldrich spoke for almost an hour and a quarter, adopting an easy, conversational style. His speech was the official utterance of the finance committee, in a sense, of the Republican side of the chamber. Without making any distinction between the two hills, Mr. Aldrich clearly stated the belief of the finance committee that the tariff bill would not yield revenue adequate for the needs of the government.

Mr. Vest of Missouri, Democratic member of the finance committee, followed with a statement in opposition to the bill. He spoke of the tariff as a thing up taxes on an overburdened people when there was a balance of \$129,000,000 in the treasury. He criticized the schedules in detail, declaring that some of them were designed to be prohibitive, and others to increase in the lead duty, declaring it was for the benefit of the "corporations" of monopoly and against the people.

Mr. Cannon of Utah, silver Republican, closed the debate by declaring that the tariff should be no distributed as to the farmers. Early in the day Mr. Mallory, the new senator from Florida, was sworn in and took his seat.

The galleries showed signs of irritation at the delay in opening the tariff debate and there was a shifting toward the entrances pending the debate on American ships. The discussion was cut off by the close of the morning session at 2 o'clock and Mr. Aldrich promptly moved that the tariff bill be taken up. The motion prevailed without opposition.

Mr. Aldrich yielded for a formal withdrawal of the bill, and the members of the finance committee, stating that when the tariff was reached relative to beer, manufactured tobacco, and cigars, he would move to strike out the provisions relating to tobacco.

It was agreed at the outset that the formal reading of the bill be dispensed with until it was considered by paragraph and then that committee amendments should be considered. After each paragraph was read, the committee amendments were to be taken up. When Mr. Aldrich began the galleries had again filled and nearly every seat on the floor of the senate was occupied. Mr. Aldrich closed at 3:30 p. m., having spoken a little over an hour.

Mr. Pettigrew presented the amendment of which he has heretofore given notice, that when articles are manufactured by a tariff, the duty shall be reduced to one-half of the duty on the raw material.

Mr. Vest, Democratic member of the finance committee, was then recognized and spoke at length.

At 4:15 the senate went into executive session and soon after adjourned.

TARIFF BILL AMENDMENT.

Provision for an Export Bounty on Grains, Etc.

WASHINGTON, May 27.—Senator Cannon of Utah today offered the following amendment to the tariff bill:

"From and after sixty days from the passage of this act there shall be paid out of any moneys in the treasury, not otherwise appropriated, to any exporter of wheat or wheat flour, rye or rye flour, corn, ground or unground, cotton, hops or tobacco, a bounty of ten cents per bushel on wheat, five cents per bushel on rye, five cents per bushel on corn, five cents per bushel on cotton, five cents per bushel on hops, and five cents per bushel on tobacco."

And all payments of bounty under this act shall be made upon negotiable commercial bills, issued by the collector of customs at the port of clearance, upon presentation at the treasury or any sub-treasury of the United States; and the secretary of the treasury is hereby charged with making and enforcing regulations as may be necessary for the full protection of the exporters and of the government, according to the true intent and meaning of this law.

This amendment is the result of a conference of silver Republicans, Populists and some Democrats, and may be said to represent the sentiments of the element in the senate which puts silver above all other subjects of legislation.

RUSSIA REFUSES

To Issue a Passport to Adolph Kutter.

WASHINGTON, D. C., May 25.—In the senate this morning Senator Perkins presented a resolution rethling the refusal by the Russian charge d'affaires at Washington to issue a passport for Adolph Kutter, an influential Jewish banker of Fresno, Cal., who was about to visit Russia.

The resolution refers to the "invidious distinctions against certain American citizens," and the official action of "Prince Lobanoff, the Russian premier, relative to the exclusion of Jews from Russia."

It provides also that this government shall request Russia to declare whether American citizens are excluded from Russia on account of their religious faith, and if so that said imperial government of Russia be requested to remove such prohibition and permit Americans of whatever religion to visit Russia.

Perkins spoke in favor of the resolution, saying that the United States should extend its protecting arm to every citizen, Jew or gentile, wherever he might go.

The resolution was referred to the committee on foreign relations.

ATTEMPT AT SUICIDE.

Train Wrecker Worden Would Escape the Gallows.

SACRAMENTO, May 25.—Satter D. Worden, under sentence of death for wrecking a train during the strike, which resulted in the death of Engineer Clark and four soldiers, made a desperate attempt at suicide in his cell at Folsom last night.

He broke the chains of a lamp and cut the left wrist with the fragments of glass, but did not succeed in severing the arteries before he was discovered.

He says he does not want to undergo the disgrace of being put in the gallows. Unless the governor intercedes, Worden will hang on June 4th.

FLOOD IN NEW MEXICO.

Town of Socorro and Many Farms Badly Damaged.

DENVER, Colo., May 25.—A special to the Republican from Santa Fe, N. M., says: Rio Grande flood waters have inundated a part of the town of Socorro, including the Santa Fe railroad, and scores of farms and orchards are under water. The damage will be many thousands of dollars to the fruit trees and crops. Many animals have been driven from their homes and severely hurt. No one has been killed, but many have been injured. The water is still rising and it is feared that the town of Socorro will be completely submerged.

HE SUGAR KING BEFORE THE UNITED STATES COURT.

Charged With Contempt in Refusing to Answer Questions in a Former Investigation.

WASHINGTON, May 26.—The trial of H. O. Havemeyer, president of the American Sugar Refining Company, for refusing to answer a question propounded by the senate sugar investigating committee in the spring of 1895, began before Judge Grady today.

There was a large crowd in attendance. No trouble was experienced in securing jury, only three peremptory challenges being made by the defense and none by the prosecution. District Attorney Davis conducted the case for the government, and Nathan C. L. Wilson, John H. Johnson of Philadelphia, and John E. Parsons of New York appeared for the defense. Edward R. Upson, the New York sugar broker who is serving a thirty days sentence in the district jail for the offense for which Havemeyer is being tried, was present as a witness but not testifying today.

The case was the chief clerk of the senate, the committee's stenographer and Senators Gray, Lodge, Davis and Lindsay, who were on the investigating committee.

The line of defense disclosed today is that the question asked, which looked to the production of data as to the political contributions of the sugar company to state and national elections, was not pertinent to the inquiry.

The defense also attacked the development of the facts that Mr. Havemeyer answered the question as to the national campaign and as to the election of United States senators before the legislative committee, and that he had paid the committee by the district attorney. Considerable stress was also placed on the attempt of the defense to show that Senator Allen's question (which Mr. Havemeyer refused to answer) was a trick question, and that the committee was not entitled to ask it.

At 4:15 the senate went into executive session and soon after adjourned.

UNIVERSITY REGENTS

Governor Budd in a Resentful Mood.

STATE PRINTING DISCUSSED

Judge Waymire Satisfied the Executive Will Fulfill His Promise.

SAN FRANCISCO, May 25.—At a special meeting of the board of regents of the State University today Governor Budd gave notice that he would offer a resolution at the next meeting to the effect that all warrants drawn for university purposes be signed by the president of the university and the secretary of the board, as the duties of his office as governor frequently required his absence from the board meetings.

A communication was read from Professor Hilgard in charge of the forestry station complaining that he was harassed by printing bills.

Governor Budd spoke very pointedly and feelingly to the issue raised. He said that no printing of anything but school books should be done at the state printing office after July 7th. He declared, however, that up to that date all such printing as referred to could be performed there.

In regard to Professor Hilgard's statement that the state printing office was closed, Governor Budd said the office was not closed, and could not be. "If it is closed today of necessity," said he, "it will not be closed tomorrow."

"I do not doubt," said Judge Waymire, "that you are capable of doing that."

The governor further said that Professor Hilgard, if he had known "as much as he ought to" would have been aware of the conditions.

The governor was very resentful of what he declared was an attempt to make it appear that the state printing office was harassed when such was not the case. He further stated that the university could at any and all times print whatever was necessary for its use.

The salary of Dr. Martin Kellogg, president of the university, was fixed at \$9,000. For some years the president has been drawing \$5,000, the extra \$3,000 being for the extra duties of the office.

The governor and regents thought that the entertainment could be neglected in hard times.

The same reason was given as a reason for reducing the salary of Edward S. Holden, director of the State Observatory, from \$5,000 to \$4,000. E. J. Wickson was appointed professor of agricultural practice.

DISPUTE OVER LAND.

Attempted Eviction and an Exchange of Shots.

PETALUMA, May 25.—No little excitement prevails in this city between parties known as the Reed and Carr factions over the possession of a ranch near this city. Six months ago, the story goes, Reed sold the ranch to Carr, but despite the sale, recently returned, took forcible possession of the ranch and refused to leave.

The trouble culminated in an attempted eviction and an exchange of shots, in the course of which one innocent neighbor narrowly escaped being killed. The Carr faction had warrants issued against Reed to kill and to leave the ranch. Reed, however, was not intimidated and refused to leave.

Reed, however, was not intimidated and refused to leave. He was arrested and taken to the county jail. Further trouble is anticipated.

VIOLATED ELECTION LAW.

An Oakland Councilman Admits the Crime.

OAKLAND, May 25.—The sole topic under discussion today in political circles in the admission made by Councilman-at-Large Caviller at last night's meeting of the city council that he had violated the purity of the elections law in having secured to support the present city wharfinger some time before the election. Re-Councilman J. M. Bassett, who was defeated at the polls by Caviller, will attempt to have the latter impeached and demand the vacant seat if successful.

Electricians on Strike.

MILWAUKEE, Wis., May 25.—About 200 electricians are on strike because contractors refuse to grant their demand of 31 1/2 cents as the minimum wage scale per hour, eight hours to constitute a day's work for journey-men. The strike has resulted in a general stoppage of work in the city.

LOS ANGELES, May 25.—John W. Garner of Bakersfield was this afternoon found guilty of counterfeiting by a jury in the United States district court.

A search of the place by the authorities brought to light about a million dollars' worth of counterfeit money. Garner will receive sentence Monday.

Fiesta Financial Report.

LOS ANGELES, May 25.—The financial committee of thirty has submitted a full report of the work done this year to the chamber of commerce, the merchants and manufacturers' association and the board of trade. The report shows a net surplus of \$110,000 in the hands of the committee. The miscellaneous articles belonging to the fiesta show them to be worth \$5,515.55, making the total assets of the organization \$6,600.75. The total amount collected in cash subscriptions was \$17,675.

NEW YORK, May 25.—The United States Leather Company has declared a dividend of 1 per cent on its preferred stock.

TWO FISTIC EVENTS

George Green Defeats Charles McKeever

IN FIFTEEN FURIOUS ROUNDS

"Kid" McCoy Gets a Decision Over Dick O'Brien in the Tenth Round.

SAN FRANCISCO, May 20.—It took George Green fifteen rounds to accomplish the hardest task he had ever undertaken in his pugilistic career when he defeated Charles McKeever of Philadelphia tonight. But he did it, and while the end was somewhat sudden and the decision not generally understood, owing to the confusion, the result was satisfactory to the 4000 spectators. The contest was notable for the terrific pace set by Green. He has always been known as a rushing fighter, but his work in tonight's contest eclipsed all former records in that regard.

In fact it was the pace that told on McKeever almost as much as the terrific punching he received about the body at the hands of Green. There were no slow rounds, no sparing for wind, but it was light and fast, and Green kept McKeever on his feet to the very end.

Green did almost all the leading, lunging repeatedly in every round on the wind with left wings and over the head with right drives. In the second round Green put a hard right over McKeever's left eye, opening a big gash from which the blood trickled down the Philadelphia's face and chest.

McKeever, who had been leading almost as well as Green, was now on the defensive. He was hit on the head with his right, Green swung on McKeever's neck with left on two occasions, throwing his man on his back. McKeever, however, did not let himself be thrown, but he was hit on the head with his right, Green swung on McKeever's neck with left on two occasions, throwing his man on his back.

—

of undiluted piety?
 Do I not shout at prayer meeting?
 Am I not evermore repeating
 the credo and doctrine?
 Do I not always give my best
 At church and Sunday school collections
 And by these act your devotion,
 All my religious ardor show?
 You do! And credit my dishonest
 Fugitives, contrived lies and did as
 on Friday or at time of hunt?
 Do I not take the eucharist
 On all and a very occasion
 And on the Sabbath's observation
 With soul and volition trust
 In Jesus Christ, my Lord and Saviour,
 And in His blood for sinners' ransom?

Who show to Hecuba adulation,
Or with Terephore enlist?

This being so, you will agree,
 I am - You are, my Christian brother,
 Just as one egg is like the other,
 A vegetable, a fruit.
 The Bible shows that of this creature
 You are in every line and feature,
 A true and sturdy egg.
 Like you, he placed a foolish stress
 On man's frail frame, was full of stock,
 Murdered his truly to teach
 With culpable self-righteousness.
 Like you, he was forever boasting
 Of his high rank, of his better training,
 But failed to share 'sore dead sinners'.

Do you not know that he incurs
 A noble teacher's condemnation,
 Who prescribes a limitation
 Of sinners' rights, of sinners' equals?
 Or, if you set him at defiance,
 You should at least not claim alliance
 With those who truth his followers.

You have your reason; so, in sooth,
 I have my faith, my faith in God.

Must plainly see that Jesus' lessons
Are not mere letters, but the essence
Of goodness, endless love and truth

And charity; is they that put us
 Of great and small, and high and low
 To have for others' sorrow woe.
 There's one, howe'er, embracing all:
 "Love's not thy brother!"
 Admired more than every other
 To captivate and control!
 A brotherhood that knows no color:
 That spans the creed, the race, the dollar,
 The lowly and the princely,
 Are you a Christian? Then, forsooth,
 Ours is the fountain's sacred mission!
 Assume at once a Christian's function,
 And be Christ's follower in truth.
 Freely at all times and seasons

 "GOD BLESS THE PRISONERS AT WORK!"

FROM RAYMOND.

Twenty-five Jailbirds Employed on
the Rockpile Yesterday—Don't
Take It.

Talk about red letter days, yesterday was a blue letter day for the prisoners in the county jail—for those prisoners that is, who are doing time for petty offenses, such as vagrancy, disturbing the peace, petty larceny, etc.

The first car of the granite recently ordered by the supervisors arrived this morning, and the rock pile is reduced and a beautiful path to the terrace

as the Bridal Veil falls are to the love of nature.

Since the supervisors began to "take the rockpile" two or three weeks ago, there has been a steady decrease in the number of tramps hereabouts. There were several in town who had been tried and acquitted, but most of them have since feared to return. They would be brought to court again the temptation to make some zoologists out of them might be one a jury could not resist. Now that the rock pile is a full acre, as Mr. French will persist in expressing it, it is probable that the hobos will give Fresno a wide berth.

After the arrival of the rock Deming, Sam Williams, overseer of the chain gang, took six or seven prisoners to the corral on the railroad reservation and had them unload the car. When they returned to jail after the comp

tion of the job, they gave such a terrifying account of the heat that the other

The prisoners grabbed in spirit and used colorful real language.

In the afternoon Thomas took 25 prisoners to the corral and put them to work braising the grauts. There was "killing" on the part of some of the prisoners, but none had the hardihood to resist confinement in the dark cell by refusing to work. Besides these 25, about 100 were set at work in the courtyards peeling the prisoners who are worked will be three meals a day, the supervisors have allowed the shrewd five cents additional for each prisoner, per diem, that purpose.

SHE LOVED IN VAIN

A Colored Woman Attempts Suicide.

DRAINED A VIAL OF LAUDANUM

Andy Dellinger Breaks Another Heart—Jilts Mrs. Jackson for a Young Girl.

From Tuesday's Daily.

Mrs. Virginia Jackson, a colored woman who lives at 1533 G street, drained a vial containing about three drachms of laudanum yesterday forenoon in an attempt to commit suicide. Through the energetic efforts of a neighbor, Mrs. Charles Sumner, her life was saved.

It was another case of unrequited love. The only person Mrs. Jackson loved in this wide world, had killed her. He was Andy Dellinger, a dashing young colored gentleman, well known about the city. A few days ago the poor woman learned that Andy was going to marry a young lady named Edith Washington, who gained some prominence recently in being the subject of a criminal assault by John Miller, who is now in jail awaiting trial.

It appeared that Andy had been paying Mrs. Jackson attentions for some time. She has a husband living in North Carolina, whom she left four years ago to come to California. But of course this child could not do that. In the event of her being found guilty in a similar manner with the colored ladies in the south. Dellinger, it seems, was quite persistent in his attentions to Mrs. Jackson, and won her heart, although he did not love her.

Then the awful rumor came to the ears of Mrs. Jackson that Andy would marry Edith Washington. She immediately called on Mrs. Sumner, and told her neighbor how she felt. She would never, the unhappy woman declared, live to see Andy Dellinger wedded to another girl.

At the time Mrs. Sumner was in the act of leaving, Mrs. Jackson told her that she was going to take a vial of laudanum and kill herself. Mrs. Sumner, who is a very kind and sympathetic woman, immediately called on Mrs. Jackson, and found her in a state of great distress.

SANDERS IN PRISON

He Was Taken to San Quentin Yesterday.

AN EARLY MORNING DEPARTURE

His Wife and Daughter Bade Him an Affectionate Adieu at the Depot.

From Tuesday's Daily.

Professor W. A. Sanders, convicted of forgery, yesterday began the service of his 12-year sentence at San Quentin. Deputy Sheriff Peck left for the prison on the 5:45 train yesterday morning with the convict, who stands out as one of the foremost characters in California's criminal history, and in the afternoon turned him over to the keeping of Warden Huls.

This probably marked the close of one of the most interesting cases that have ever been in the Fresno courts. Deputy Peck performed what is believed to be the last duty required of the county authorities in the case, for it is very probable that Sanders will make any further efforts to regain his freedom. He is now 55 years of age, and he will in all likelihood serve the remainder of his life within the prison walls.

Professor Sanders' departure from Fresno was a quiet one. The early hour prevented the gathering of curious spectators that would otherwise have been present to see the celebrated criminal for the last time. Mrs. Sanders and her younger daughter, who were in the city, were the only ones who accompanied the prisoner to the depot.

It was shortly after 5 o'clock when Night Jailer J. J. Peck, who was in charge of the prisoner, took him to the depot. Mrs. Sanders and her daughter, who were in the city, were the only ones who accompanied the prisoner to the depot.

The Good Templars' lodge of West Park will celebrate its tenth anniversary on Friday evening, May 28th. The organization is in a flourishing condition and has done much useful work. Mrs. Sarah Pratt Carr of Los Angeles, the well-known lecturer, has been invited to deliver an address on the occasion. The subject will probably be "Tomorrow's Citizens," and it will deal with the responsibilities of young people in future citizenship. Mrs. Carr is a cultured woman and her lecture will undoubtedly be both interesting and instructive.
